SUPPORT VISTEON OCCUPATIONS

Workers at the Visteon car parts plants in Basildon, Enfield and Belfast have occupied their plants after they were sacked with no notice, no redundancy pay and with their pensions frozen. They produce components for Jaguar, Land Rover, Ford Transit and others. Many have worked at the plants for 20 years or more, but have now been thrown on the scrapheap. They used to be part of Ford, and most workers are still on Ford contracts, but these have been ignored. The Visteon workers are showing the way to fight for jobs and justice. They need the support of the whole movement.
